

THE BAHAMAS FOUNDATION

Ecosystem

Four levels to the project to get engagement of private sector, Government and civil society

1/ eco system - define who is involved in the sector - private sector, Government, and civil society - engagement model.

2/ information/data - collect baseline of the eco system who is there, who wants what

3/ appropriateness of services - mapping what do the stakeholders want - ethnographic participatory research model

4/ structures - how to set up the org for success - develop an impact assessment model
